

On May 4, 2008, Stephanie was taken to the ER with unusual bruising and tiny red spots all over her body.

She was transferred to another hospital with a platelet count of 2,000, and soon after diagnosed with ITP, a rare bleeding disorder.

Due to complications and hemorrhaging in the brain, Steph died four days later, on May 8, 2008.

TEAM Stephanie was started by Stephanie Lufkin's family and friends, in memory of her life, and as a means to further ITP medical research and fund family assistance initiatives.

Through training for the Cleveland Marathon in 2009, TEAM Stephanie raised over \$21,000 for the ITP Foundation.

It is our wish, and our mission, to help raise awareness, guarantee more research, and ensure better training when dealing with such a rare and delicate disease.

There is no better way to honor our daughter and show your support.

Please consider donating to TEAM Stephanie.

We are running for Steph and the ITP Foundation!
